The 3-5 Year estimated EPS growth rate is the average rate that the analyst community expects normalized earnings per share to grow over a 3-5 year time horizon. All company level estimates are then used to calculate the fund average which is the number reported. Normalized EPS numbers are those calculated from the core, recurring operations of the firm and exclude onetime and/or extraordinary items.

The Benchmark is the Russell Midcap Index. The Index measures the performance of the mid-cap segment of the U.S. equity universe. The Index is a subset of the Russell 1000® Index, representing approximately 27% of its total market capitalization. It includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. The benchmark is unmanaged and not available for direct investment.

To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges, and expenses before investing. This and other information can be found in the Fund's summary or full prospectus, which may be obtained by calling 1.866.773.3238. Read the prospectus carefully before investing or sending money.

Mutual fund investing involves risk, including possible loss of principal. There can be no assurance that the Fund will achieve its stated objectives. In addition to the normal risks associated with investing, investments in smaller companies typically exhibit higher volatility. Current and future holdings are subject to risk.
